Removal of Brown Tail Moth/ Treatment of Trees

NVC Kind Reminder: Best practice of pesticide use on private property is always to hire a licensed professional for application. ***Out of respect, please speak with neighbors prior to plans for treatment especially if spraying.*** Of course, owners may not spray on public land and must contact the Board of Overseers with concerns that would require pesticide application. In addition, although Northport does not have specific regulations regarding pesticides, the State of Maine does. You can read more at www.maine.gov/dacf/php/pesticides/public/.
